# SASE LSU GeauxHack

---

For the 2023-2024 school year, SASE LSU is thrilled to announce the return of GeauxHack, marking its comeback to the College of Engineering. GeauxHack will once again be a remarkable 2.5-day design competition held in the Patrick F. Taylor Hall. The event will be organized and run by the members in SASE LSU. Members will be able to gain leadership and teamwork skills. For the participants, the competition will allow them to showcase their coding skills and develop new skills.

GeauxHack aims to provide a platform for participants to exhibit their coding expertise and cultivate new skills. As we witness the expansion of our Computer Science department and the recent addition of a Cybersecurity discipline, SASE LSU, as an organization, is eager to facilitate more opportunities for students to develop the necessary skills to thrive in the competitive job market. Beyond fostering programming and teamwork abilities, GeauxHack will ignite a spirit of innovation, bolster student resumes, and fortify cover letters. Additionally, the event will serve as a prime location for recruiters and companies to scout talent at LSU.

Save the date for September 29th through October 1st, as these action-packed days will be filled with GeauxHack festivities. To prepare participants for the competition, GeauxHack workshops will be offered on September 15th and September 16th and a Q + A session on September 24th, enabling them to sharpen their skills ahead of time. The event will commence on the evening of the first day with a warm welcome, followed by a delightful dinner and the announcement of the competition tasks. On the second day, participants will dedicate their time and effort to tackle their assigned tasks, fueled by provided meals and snacks. The event will continue on the third day and will culminate on the evening with presentations, dinner, and the distribution of well-deserved prizes.

We anticipate an estimated attendance of approximately 120 individuals, including participants, staff, sponsors, and corporate representatives.

# Budget

# Conclusion

---

Dear Corporate Supporter,

On behalf of the Leadership team of the Society of Asian Scientists and Engineers at Louisiana State University, we would like to thank you for taking the time to consider supporting our organization.

Your support allows us to further expand our chapter and provide development opportunities for our current and future members. Along with helping this chapter, your company allows us to reach out and contribute to our local communities. The success of our events would not be possible without your support and involvement with this chapter.

Once again, thank you for your consideration in becoming involved with SASE LSU Hackathon!

Sincerely,

**Aeryn Sindiong**

President 2023-2024

**Andrew Cao**

Vice President 2023-2024

**Faith Loh**

Secretary 2023-2024

**Michelle Vo**

Treasurer 2023-2024

**Jacob Nguyen**

Public Relations Chair 2023-2024
